# Terms of Business

We Sell only under the following Terms and Conditions of Sale:—

1. The greatest care is taken by us to supply all Seeds, Bulbs, Plants and Roots of the best quality and true to name; but, owing to conditions over which we have no control it is impossible to guarantee this, and condition is made on every purchase of Seed, Bulbs, Plants or Roots, that, **NOTWITHSTANDING ANY STATUTE OR RULE TO THE CONTRARY, WE SHALL NOT BE RESPONSIBLE FOR RESULTS**, and give no Warranty, expressed or implied, as to the nature, description, kind, quality or productiveness of such Seeds, Bulbs, Plants or Roots. If you do not accept the Seeds, Bulbs, Plants or Roots as having been sold to you under these terms, kindly return same to us at once, Carriage Paid.
2. **PRICES** are quoted nett subject to all goods being unsold on receipt of order.
3. Where goods are listed at per dozen, parcels of **SIX TO FORTY-NINE** will be supplied at the dozen rate, less than **SIX** will be charged at single rate. Where goods are listed at per **HUNDRED**, parcels of **FIFTY OR OVER** will be supplied at hundred rate. Any rates not listed will be gladly supplied on request.
4. **PACKING** and packing material will be charged at cost price, but no charge will be made for the packing of postal packets and parcels. If so requested, trees, shrubs and plants quoted as in pots will be removed from pots and balled to reduce freight charges.
5. **DELIVERY** of all goods **F.O.R.** or **F.O.B.**, Geelong. Please state if you desire your order despatched by any particular means of transport; otherwise we will despatch by cheapest means to your advantage. All goods sent by rail or water are at customer's risk; but, if necessary, and unless otherwise instructed, Insurance is effected against Marine Loss, and current rate of premium charged. Please note that all goods sent by **POST** are entirely at the Consignee's risk.
6. **FREIGHT AND POSTAGE.** We pay postage on all retail orders for Flower and Vegetable seed (excepting Peas and Beans). Postage or freight on all other goods is payable by Purchaser.
7. **ACCOUNTS.** To **APPROVED** customers, our terms are **NETT** cash within thirty (30) days of date of Invoice. First orders are to be accompanied by satisfactory business references, cash or cheque. We appreciate payment of amounts under one pound (£1) by Postal Note or Money Order.

**IMPORTANT**—This Spring List is not intended to replace our Annual Issue but to remind you of Special Seeds and Plants for Spring planting.

In cases where descriptions have been curtailed full information is given in "Claremont Productions" forwarded earlier in the year.

***Our Next Seasonal List will be issued in November***

# We Specially Recommend . . .

## Antirrhinum

There are few flowers to equal the Antirrhinums as bedding plants for spring, summer and autumn use, for they make a magnificent show in beds or borders and thrive and bloom abundantly in almost any soil or situation. They are so easy to grow, and give a wealth of bloom of the most varied and charming colors, with the minimum of attention. Antirrhinums may be had in bloom from October to late Autumn. The intermediate varieties are of excellent habit for bedding and are very free flowering. Those in the tall section are of taller habit, whilst in the Tom Thumb section the plants are dwarf and compact and wonderfully free flowering.

### Giant Maximum Varieties

(TALL GROWING SECTION.)

Height 48 to 60 inches.

This wonderful new group of Giant Snapdragons far surpasses anything yet introduced. The flowers closely packed on full spikes are of magnificent size—invaluable for garden decoration. They are also incomparable cut flowers of exceptional quality.

|                                   |                                              |
|-----------------------------------|----------------------------------------------|

| CHOICE MIXED—From named varieties                    | Pkts., 3d.; $\frac{1}{4}$ oz., 1/-; oz., 3/9  |

### Majus Nanum Grandiflorum

(SEMI-DWARF SECTION.)

Height 18 to 24 inches.

|                                                                                                                                                                                                                                                                                                                |                                               |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------|
| DEFIANCE—Orange scarlet                                                                                                                                                                                                                                                                                        | Pkts., 3d.; $\frac{1}{4}$ oz., 3/6; oz., 11/6 |
| ECLIPSE—Brilliant fiery crimson                                                                                                                                                                                                                                                                                | Pkts., 3d.; $\frac{1}{4}$ oz., 2/6; oz., 8/9  |
| GOLDEN QUEEN—Extra select bright golden yellow                                                                                                                                                                                                                                                                 | Pkts., 3d.; $\frac{1}{4}$ oz., 3/6; oz., 11/6 |
| HIS EXCELLENCY—Purest scarlet                                                                                                                                                                                                                                                                                  | Pkts., 3d.; $\frac{1}{4}$ oz., 4/3; oz., 14/6 |
| MAJESTIC "ORANGE KING"—Terra cotta                                                                                                                                                                                                                                                                             | Pkts., 3d.; $\frac{1}{4}$ oz., 5/3; oz., 17/6 |
| MALMAISON—Pure deep silvery pink; dark foliage                                                                                                                                                                                                                                                                 | Pkts., 3d.; $\frac{1}{4}$ oz., 3/6; oz., 11/6 |
| MAUVE BEAUTY—Rosy mauve                                                                                                                                                                                                                                                                                        | Pkts., 3d.; $\frac{1}{4}$ oz., 3/6; oz., 11/6 |
| ORANGE GLOW—Salmon orange with orange yellow lip                                                                                                                                                                                                                                                               | Pkts., 3d.; $\frac{1}{4}$ oz., 2/9; oz., 9/-  |
| ROSE ECLIPSE—Immense flowers, rose pink                                                                                                                                                                                                                                                                        | Pkts., 3d.; $\frac{1}{4}$ oz., 2/6; oz., 8/9  |
| "SCARLET TRIUMPH"—The perfect scarlet bedding Antirrhinum which up to date cannot be surpassed by any other variety. Compact, regular growth, large individual flowers joining to form closely set and thickly covered spikes, bright fiery color; all these characteristics are united in this new Snapdragon | Pkts., 6d.                                    |
| VICTORY—Rich terra cotta orange shading to yellow in centre                                                                                                                                                                                                                                                    | Pkts., 3d.; $\frac{1}{4}$ oz., 2/9; oz., 9/-  |
| "WELCOME"—The best of all crimson varieties. No purple or magenta whatsoever can be detected in the large, finely formed flowers. They are true, deep brilliant crimson                                                                                                                                        | Pkts., 6d.                                    |
| WHITE WONDER—Largest flowered white variety                                                                                                                                                                                                                                                                    | Pkts., 3d.; $\frac{1}{4}$ oz., 2/9; oz., 9/-  |
| CHOICE MIXED—From named varieties                                                                                                                                                                                                                                                                              | Pkts., 3d.; $\frac{1}{4}$ oz., 1/-; oz., 3/9  |

### Nanum Compactum

(TOM THUMB VARIETIES.)

Height 12 to 15 inches.

# Stinton's Giant Branching Wilt Resistant Aster

Aster "Stinton's" Wilt Resisting.

One of the largest types of Aster in existence. The immense flowers resemble massive Chrysanthemums, and are borne on long stiff stems. The seed offered is saved from selected plants only, and each variety is a leader in its class. The most pretentious Aster improvement of recent years is the development of wilt-resistant strains. Although not novelties in the true sense of the word, we consider these wilt-resistant Asters among the noteworthy introductions of our experience in Horticulture. The Aster wilt disease is caused by a parasitic fungus *Fusarium conglutinans* var *callistephi*, which is carried on the seed, on cultivating implements and in the soil. The fungus persists indefinitely, and attacks any Asters which may be planted there at any time thereafter. Only through the use of resistant stocks is it possible successfully to grow Asters more than one year on the same soil. All the seed, as offered by us, is raised from GENUINE CERTIFIED WILT-RESISTANT stock, and can be relied upon to give every satisfaction.

## Super Giant Branching

"EL MONTE"—Deep glowing crimson, composed of abundant quantities of daintily interlaced plume-like petals, the flowers are extremely large and fluffy, borne on heavy non-lateral, basal branched stems. It is very early blooming, coming in before the California Giant varieties, and remaining in flower over a long period. Although not wilt resistant, we highly recommend "El Monte" to you. Pkts., 1/-

"LOS ANGELES"—This is the largest and most fully double Aster known. The flowers are from six inches across, fully petalled and artistically graceful in the feathery effect of the interlacing Ostrich feather type petals. The color is a lovely soft shell pink blending to a creamy pink in the centre. The plants reach a height of 2½ to 3 feet. For those who want the finest Aster yet developed, we heartily recommend "Los Angeles." This is not a wilt-resistant variety. Pkts., 1/-

WILT RESISTANT "APPLE BLOSSOM"—One of the most beautiful of the giant branching Asters. The large well-filled flowers are of a distinct clear shade known as shell pink. Pkts., 6d.; ¼ oz., 1/9; oz., 6/-

WILT RESISTANT "AVALANCHE"—Very early pure white Aster; elegantly frilled flowers of the Ostrich plume type which are of perfect form and extreme lasting quality. Pkts., 6d.; ¼ oz., 1/9; oz., 6/-

WILT RESISTANT "AMETHYST"—Handsome large flowers borne on long clean stems. In color, this variety is a deep azure blue. Has extreme lasting qualities, both in the border and as a cut flower. Pkts., 6d.; ¼ oz., 1/9; oz., 6/-

WILT RESISTANT "BLUE EAGLE"—We present "Blue Eagle," one of the contributions to the code for better flowers. The color is a bright navy blue, distinct from any other dark blue or purple Aster now offered, of the giant-branching "Comet" class, with large Comet-type flowers, fully double, on branching plants, suitable for cutting or garden use. The strain is very robust. Pkts., 1/-; ¼ oz., 2/9; oz., 9/-

WILT RESISTANT "CRIMSON KING"—Magnificent Aster of surpassing beauty, large massive flowers of bright crimson color. For brilliancy of color this variety is incomparable. Pkts., 6d.; ¼ oz., 1/9; oz., 6/-

WILT RESISTANT "ELECTRA"—Superb salmon pink flowers; a novel shade of color which is unusually effective under artificial light. Pkts., 6d.; ¼ oz., 1/9; oz., 6/-

WILT RESISTANT "GOLDEN SHEAF"—We take pleasure in introducing "Golden Sheaf," the deepest yellow Aster yet offered, and the only one that is wilt-resistant. The flowers are fully double, with an attractive crest-like centre, of good substance and fine depth of petal. It has all the characteristics of the Aurora type of Aster. Pkts., 6d.; ¼ oz., 2/9; oz., 10/-

WILT RESISTANT "PEACH BLOSSOM"—A fine Aster of the Mammoth Comet type, but producing even larger flowers, rich rose in color, borne on stout stems 15 to 20 inches in length. Extremely valuable for either the garden or for large vase decoration in the home. Pkts., 6d.; ¼ oz., 1/9; oz., 6/-

WILT RESISTANT "PEERLESS PINK"—Large flowers of a delightful shade of rose pink. The plants are of robust type and the flowers are produced freely. Pkts., 6d.; ¼ oz., 1/9; oz., 6/-

WILT RESISTANT "PURPLE PRINCE"—The darkest Aster in cultivation; the flowers are of perfect form and are borne on long clean stems. Pkts., 6d.; ¼ oz., 1/9; oz., 6/-

WILT RESISTANT "SALMON QUEEN"—Immense flowers with long curved petals radiating from the centre. The clear salmon pink flowers are borne on long stems and are excellent for cutting purposes. Pkts., 6d.; ¼ oz., 1/9; oz., 6/-

WILT RESISTANT "SENSATION"—Brilliant scarlet flowers of fine size and form. On account of its vivid color is destined to become one of the most popular garden varieties. Pkts., 6d.; ¼ oz., 1/9; oz., 6/-

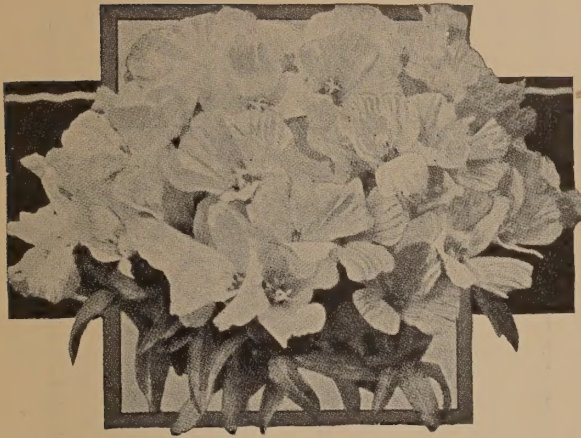

WILT RESISTANT, FINEST MIXED—A well-balanced mixture of good bright and delicate colors. The flowers are large and full and of the Giant Comet type with broad graceful petals, borne on long strong stems. Pkts., 6d.; ¼ oz., 1/9; oz., 6/-

## SPECIAL OFFER

ONE PACKET EACH OF WILT RESISTANT VARIETIES  
13 Packets for 5/-

## Godetia

Godetia Single Mixed.

Very handsome annual plants especially suited for semi-shaded positions. The flowers are bright and colorful and the single sorts are not unlike the Azalea in form. Popular for cutting.

**CHARMING**—A glowing deep satiny-pink. Very even in habit and extremely free-flowering . . . Pkts., 6d.; oz., 3/-

**FLAMINGO**—Crimson scarlet of ideal habit; the best of the single dwarf Godetias . . . Pkts., 6d.; oz., 6/-

**"KELVEDON GLORY"**—The color is deep glowing salmon orange, of an intensity and vividness that can be found in no other Annual. The blooms are of beautiful symmetry and fine texture. Contrary to the usual characteristics of plants bearing flowers of such an exceptional coloring, their constitution is strong and robust and their freedom of flowering unusual. We recommend "Kelvedon Glory" with every confidence and are certain that it will find a good demand from the amateur, followed by hearty commendation after it has been flowered . . . Pkts., 1/-

**"SYBIL SHERWOOD"**—Dwarf compact habit, plant completely covered with double bright salmon-pink flowers. The flowers are produced in profusion, causing the Azalea-like plant to completely hide its foliage beneath a canopy of bloom . . . Pkts., 1/-

**TALL DOUBLE MAUVE**—2½ feet; a delicate coloring deep mauve; excellent for cutting . . . Pkts., 6d.; oz., 3/9

**TALL DOUBLE MIXED**—All colors in splendid mixture . . . Pkts., 3d. oz., 2/-

**TALL SINGLE MIXED**—All colors in splendid mixture . . . Pkts., 3d.; oz., 2/-

**DWARF SPECIAL MIXED**—Well blended mixture of best colors . . . Pkts., 6d., oz., 3/9

## Carnation

**PERPETUAL OR TREE MIXED**—An exceptionally fine strain of the Perpetual Carnations, saved from the very finest named varieties only . . . Pkts., 2/6

**CHABAUD'S EXTRA QUALITY MIXED**—A remarkably fine and vigorous strain of French origin. Blooms in about five months from seed. Produces nicely fringed flowers of very large size and perfectly double. The strain blooms indefinitely . . . Pkts., 6d.; ¼ oz., 5/-

**MARGARITA MALMAISON**—An exceedingly popular type, blooming in a few weeks from the seed. They are of very good size and produce a large percentage of fully double flowers. A splendid mixture of colors . . . Pkts., 6d.; ¼ oz., 4/3

**MARGARITA FINEST MIXED**—A good mixture of colors in free blooming types . . . Pkts., 3d.; ¼ oz., 2/3

### "IDEAL"

THE EFFICIENT SNAIL AND SLUG DESTROYER.  
CLEAN AND EASY TO HANDLE.

**Packets 1/-**

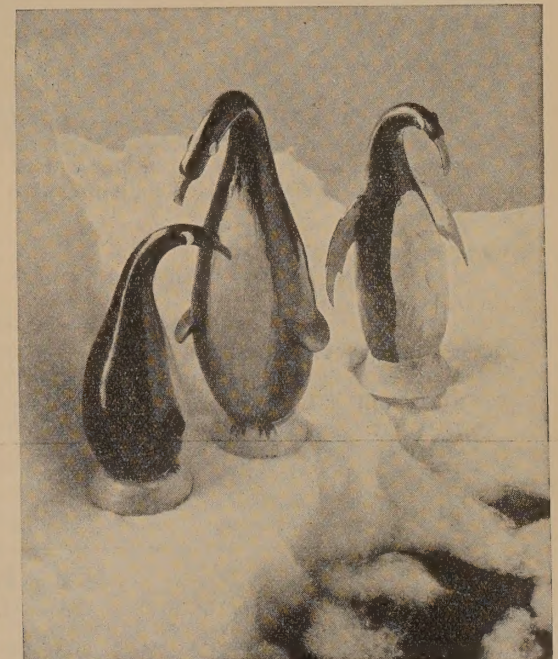

## Gourds (ORNAMENTAL)

Gourd Small Varieties Mixed.

Easily grown in any good garden loam as you would Squash, or other Vine crops; or may be trained on trellises, fences, stone walls or arbours. The ripened fruits can be used for ornamental purposes.

**PACKETS - - 6d. EACH.**

Calabash Gourds Decorated as Penguins.

## Salpiglossis

Sun-loving, velvet petalled annual; 2½ feet high. The richly colored, trumpet shaped flowers are produced in the greatest profusion; magnificent for summer bedding in sunny locations.

**SUPERBISSIMA EMPEROR**—A wonderful strain, including all the largest, brightest flowers

Pkts., 6d.; ¼ oz., 1/6; oz., 5/3

**GRANDIFLORA, FINE MIXED**—Gorgeous shaded flowers

Pkts., 6d.; ¼ oz., 1/6; oz., 4/6

**NANA DWARF MIXED**—A dwarf growing strain of the Superbissima type; good range of color, very compact type

Pkts. 6d.

## Tithonia Speciosa

(GOLDEN FLOWER OF THE INCAS.)

Tall-growing hardy plant with rich orange-red flowers of a very telling color. Eminently suited for cutting purposes.

Packets, 1/-

## Viscaria

Colorful and free-flowering annuals for borders, beds, etc.; 12 inches high. Make a beautiful display when planted in masses.

**CANDIDA**—Solid white flowers

Pkts., 3d.; ¼ oz., 1/-; oz., 3/-

**CARDINALIS**—Scarlet

Pkts., 3d.; ¼ oz., 1/-; oz., 3/-

**OCULATA, DELPHINIUM BLUE**—Vivid color.

Pkts., 3d.; ¼ oz., 1/-; oz., 3/-

**TOM THUMB "FIRE KING"**—Gorgeous scarlet flowers

Pkts., 1/-; ¼ oz., 3/3; oz., 10/6

**TOM THUMB "LOYALTY"**—A fine bright blue

Pkts., 1/-; ¼ oz., 3/3; oz., 10/6

**MIXED**—Extremely pretty mixture

Pkts., 6d.; ¼ oz., 1/6; oz., 5/3

## Viscaria

Viscaria Blue Pearl.

**"BLUE PEARL"**—Aptly named, this new Viscaria is so pure and delicate in color that it calls to mind immediately that particular refinement which makes the pearl so attractive. The plant is free-flowering and has the advantage of being more tidy and erect in habit than the average Viscaria. The color, pure lavender blue, is outstanding and differs from the other blue Viscarias to a degree which makes it absolutely distinct; the lack of "eye" which is a common character of most sorts, adds considerably to its distinction. Viscarias are becoming extremely popular, and some of the outstanding bedding effects we have seen this year have resulted from broadcast sowings which make a very attractive effect en masse.

Packets, 1/-

## Zinnia

### STINTON'S

### Famous "GOLD MEDAL" ZINNIAS

are Rightly Named as  
they are unsurpassed  
for

Brightness of Color  
Size of Bloom  
Branching Growth

Few flowers have exhibited greater improvement at the hands of hybridisers than the Zinnias, and their improvement has been matched with a corresponding increase in public favour. For those getting started with Zinnias, it should be emphasised that the nature of the plants demands plenty of warmth. This is explained by the fact they are native to Mexico.

## KILL - A - MITE

THE WORLD'S MOST EFFICIENT MANURIAL  
INSECTICIDE AND FUNGICIDE.  
EFFECTIVE AGAINST PESTS AND DISEASES  
OF SOIL AND PLANT.

KILLS PESTS, STERILISES THE SOIL, AND  
PROMOTES GROWTH.  
A DRY POWDERED CONTACT POISON.  
MAY BE USED AS A DUST OR MANURE.

7 lbs., 1/6; 28 lbs., 4/-; 56 lbs., 7/6; 112 lbs., 14/6

# Zinnia

**Stinton's Giant Dahlia-Flowered Varieties: Immense double flowers of gorgeous coloring, free blooming and lasting.**

**CANARY BIRD**—Rich canary yellow  
Pkts., 6d.;  $\frac{1}{4}$  oz., 1/6; oz., 5/-

**CRIMSON MONARCH**—Deep crimson, flowers very large  
Pkts., 6d.;  $\frac{1}{4}$  oz., 1/6; oz., 5/-

**DESERT GOLD**—This variety contains the light and deep hues of gold, each petal overlaid at the base with a deeper golden yellow, giving a charming, bi-color combination. Those who appreciate the finest in Zinnias will welcome "Desert Gold"  
Pkts., 6d.;  $\frac{1}{4}$  oz., 2/6; oz., 8/-

**DREAM**—Deep lavender  
Pkts., 6d.;  $\frac{1}{4}$  oz., 1/6; oz., 5/-

**EXQUISITE**—Light rose, deep rose centre  
Pkts., 6d.;  $\frac{1}{4}$  oz., 1/6; oz., 5/-

**FLASHLIGHT**—We have had many inquiries recently for a pure golden yellow Zinnia, and now have pleasure in offering this shade in the new variety "Flashlight." A very bright colored and desirable variety, the flowers are of perfect shape and the color a very telling one for separate beds  
Pkts., 6d.;  $\frac{1}{4}$  oz., 1/6; oz., 5/-

**NIGHTBIRD**—A beautiful violet flowered Zinnia. The shade is one which has been lacking in the Zinnia and we have the utmost faith in its flowering qualities. The color deepens towards the centre of the flower, which is fully up to 5 or 6 inches in diameter  
Pkts., 6d.;  $\frac{1}{4}$  oz., 1/6; oz., 5/-

**METEOR**—Very brilliant crimson, the deepest of all reds  
Pkts., 6d.;  $\frac{1}{4}$  oz., 1/6; oz., 5/-

**OLD GOLD**—Deep and lighter shades of old gold  
Pkts., 6d.;  $\frac{1}{4}$  oz., 1/6; oz., 5/-

**POLAR BEAR**—Large pure white  
Pkts., 6d.;  $\frac{1}{4}$  oz., 1/6; oz., 5/-

**STINTON'S BRIGHTNESS**—In this remarkable variety, the flowers are deep rose, closely approaching crimson, and of a glistening brightness not seen in any other variety of the Zinnias; under artificial light, the blooms are a bright rosy scarlet, and are unsurpassed for decorative purposes. The plants are very robust and free flowering  
Pkts., 6d.;  $\frac{1}{4}$  oz., 1/6; oz., 5/-

**STINTON'S FIREBALL**—Another new variety of great merit, the color being a bright vivid scarlet. The flowers are of immense size and are produced in the greatest abundance. The plants grow freely, and although they attain large proportions, are graceful and beautiful  
Pkts., 6d.;  $\frac{1}{4}$  oz., 1/6; oz., 5/-

**STINTON'S GIANT DAHLIA FLOWERED, GOLD MEDAL MIXTURE**—This mixture embraces all the most brilliant and largest flowered varieties of this magnificent type of Zinnia, and for either garden decoration or cut flower purposes, the strain is unexcelled  
Pkts., 6d.;  $\frac{1}{4}$  oz., 1/6; oz., 5/-

## SPECIAL OFFER

ONE PACKET EACH OF GIANT DAHLIA FLOWERED VARIETIES

**13 Packets for 5/-**

**STINTON'S FANTASY MIXED**—The rounded flowers are composed of a mass of shaggy ray-like petals which give a delicate and refined appearance to the medium sized double flowers. The color range includes the brightest shades of reds and orange, as well as the popular pastel pinks and creams

Pkts., 6d.;  $\frac{1}{4}$  oz., 1/9; oz., 6/-

**IMPROVED LILLIPUT OR BABY ZINNIA**—Mixed: Small round and compact flowers borne on strong stems. This striking strain is of great value for bedding purposes. Colors range from bright reds, orange, and yellow, through pink and rose shades

Pkts., 6d.;  $\frac{1}{4}$  oz., 1/9; oz., 6/-

**CROWN OF GOLD MIXED**—This aristocrat among Zinnias retains its place as an outstanding novelty. Each petal of the flower is overlaid with deep golden yellow at the base, while carrying out the individual flower color at the tip  
Pkts., 6d.;  $\frac{1}{4}$  oz., 1/9; oz., 6/-

**SCABIOUS-FLOWERED MIXED**—Plants 2 to 2½ feet high, bearing numerous medium sized flowers remarkably resembling the annual Scabiosa. Colors include crimson, scarlet, orange, yellow, pink and white

Pkts., 6d.;  $\frac{1}{4}$  oz., 2/6; oz., 8/-

**ROBUSTA GRANDIFLORA PLENISSIMA MIXED**—In habit the plants are robust and compact, and the flowers are deep and very double, colors varied including many new shades  
Pkts., 3d.;  $\frac{1}{4}$  oz., 9d.; oz., 2/6

Zinnia Lilliput Pastel Mixture.

## Zinnia Lilliput

**PASTEL MIXTURE**—Because of the neat, compact symmetrical habit of the flowers, together with their small size and length of stem, these Zinnias are particularly fine for cutting for bouquets in the home. When we are thinking of flowers for cutting our minds automatically turn to the pastel shades. Until this past season there has been no strictly pastel variety in the Lilliput type. In the pastel mixture however, have been incorporated the very lovely soft shades of apricot, peach, creamy yellow, shell pink, delicate salmon, light rose and orchid, which are prime favourites with florists and cut flower growers. The plants are 12 to 15 inches in height. Neat in habit, compact growing and very free flowering. It is one of the early blooming types producing flowers about 45 days after the seed is sown.

Packets, 1/-

## Heteropappus

HISPIDUS (Blue Daisy).

One of the finest plants for late summer and autumn flowering. Plants grow 2 to 2½ feet high and are literally covered with Marguerite-like flowers 1½ inches across, which greatly resemble single Asters. The color is most desirable, silvery lavender-blue in striking contrast with the bright yellow central disc. Lasts well when cut

Packets, 1/-

## Hollyhock

ANNUAL  
DOUBLE  
SCARLET  
BEAUTY.

A fully double Hollyhock of the Chater type which will flower in six months from the time the seed is sown—that is the outstanding characteristic of Annual Double Scarlet Beauty. The size of flower and plant habit are identical with the Chater Hollyhocks, but this new annual can be sown in spring for summer flowers the same year. In color, pure intense scarlet, gorgeously headlighting the garden scene, Scarlet Beauty is the finest of what will later be a whole race of annual flowering double Hollyhocks of this type. In those sections of the country where Hollyhocks winter with difficulty, this new annual Hollyhock fills an important need, and for gardeners it will save a whole year's time in growing.

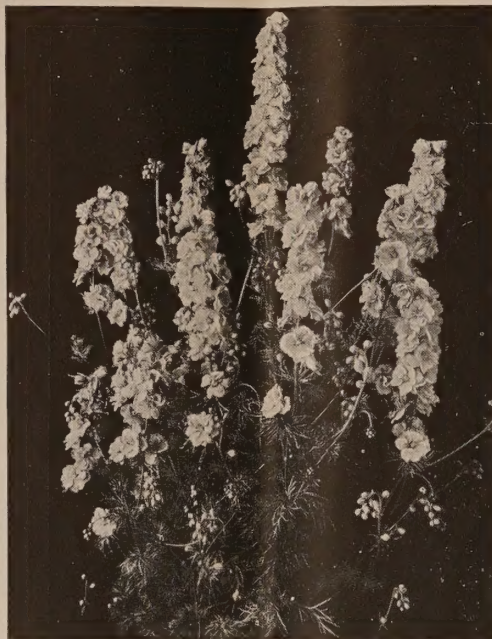

Hollyhock Bodger's Annual Double Scarlet Beauty.

Packets, 2/6

## Larkspur

Particularly hardy and attractive annuals.  
(Seed sown where it is to flower often gives the best result.)

Larkspur "Rosamond."

STOCK FLOWERED DOUBLE BRANCHING.  
ROSAMOND—There are three points on which "Rosamond" is outstanding. The color is new and distinct, a pure bright rose, which has been entirely lacking in Larkspurs up to this time. It is two weeks earlier than other Stock-flowered varieties, giving a good cut before other Larkspurs are available. It is exceptionally uniform in height, four feet tall, with numerous good spikes heavily covered with fully double flowers

Pkts., 6d.; ¼ oz., 1/6; oz., 4/6

In Separate Colors—

Bright Rose, Lilac, Dark Blue, Flesh Color, Art Shades Mixed, Extra Choice Mixed

Pkts., 6d.; oz., 2/9

GIANT IMPERIAL "BLUE BELL"—"Blue Bell" is a fine medium blue Larkspur deeper than "Sky Blue," a color up to this time lacking in the Giant Imperial type. The habit is decidedly upright, with long basal branched flowering spikes, well adapted for cutting Pkts., 6d.; ¼ oz., 1/-; oz., 3/9

## Marigold

The African and French Marigolds enjoy a well deserved popularity. They form excellent material for mixed borders, and offer an endless supply of splendid cut flowers. The diversity of orange and yellow shades in which they abound permits of most effective contrast in decoration if combined with blues and purples of Larkspur, Cornflower, etc.

Marigold Dwarf French Double Harmony.

## African Type

GIANT SHOW LEMON—Giant double flowered clear lemon-yellow . . . . . Pkts., 6d.; ¼ oz., 2/6; oz., 8/-

GIANT SHOW ORANGE—Extra large, fully double bright orange . . . . . Pkts., 6d.; ¼ oz., 2/6; oz., 8/-

CHOICEST DOUBLE MIXED—Contains many shades of orange and yellow . . . . . Pkts., 6d.; ¼ oz., 2/6; oz., 8/-

GUINEA GOLD (RESELECTED)—This is a very distinct type of Tagetes, of graceful pyramidal habit, growing 2½ to 3 feet high, and producing 30 to 40 flowers to the plant, 2 to 2½ inches across, of a brilliant shade of orange flushed with gold. Unlike the ordinary African Tagetes, this new variety produces no single flowers, but practically 100 per cent. semi-double and double flowers

Pkts., 6d.; ¼ oz., 1/-; oz., 2/9

# Stinton's Brilliant Autumn-Flowering Marigolds

## French Dwarf

**DWARF DOUBLE MIXED**—A very compact strain comprising a wide range of colors, bronze, yellow and mahogany . . . . . Pkts., 3d.;  $\frac{1}{4}$  oz., 9d.; oz., 2/3

**DWARF FRENCH "HARMONY"**—"Harmony" is without question one of the very finest Marigolds ever introduced. It is in all respects outstanding. Dwarf, compact plants, exceedingly free flowering and extremely early. The flowers are distinct Scabiosa-like in formation with tubular deep orange centre petals flanked by bright velvety dark maroon guard petals . . . . . Pkts., 1/-

**"ELECTRIC LIGHT"**—Flowers, double yellow, spotted brown; extremely dwarf and very suited to ribbon bordering or the edging of beds . . . . . Pkts., 6d.

**"GOLDEN BALL"**—Golden orange double flowers; makes a splendid border or bedding plant . . . . . Pkts., 3d.;  $\frac{1}{4}$  oz., 1/-; oz., 3/3

## SPECIAL OFFER

ONE PACKET EACH DWARF VARIETIES  
4 Packets for 1/9

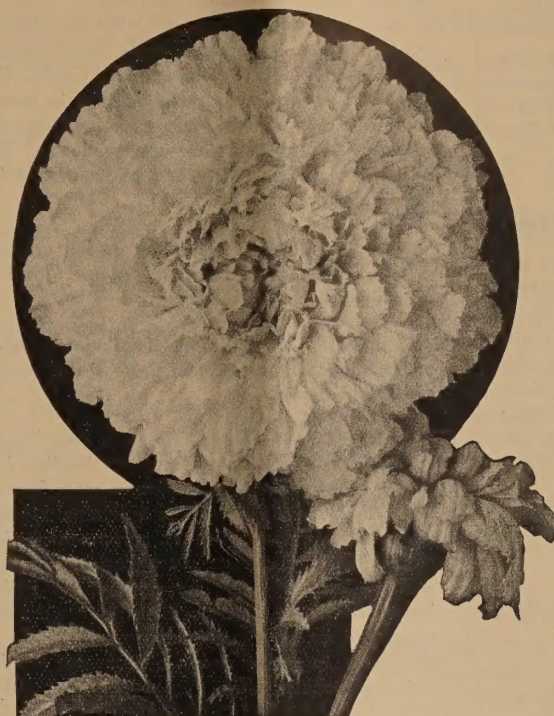

## French Intermediate

**GOLD STRIPED**—A superb strain of Scotch origin. Double deep velvety flowers striped gold . . Pkts., 6d.

**"ROYAL SCOT"**—The large, well-formed, double flowers are produced in abundance on plants from 24 to 30 inches in height. The color is a charming combination of mahogany and gold in symmetrical stripes which radiate from the centre of the flower . . . . . Pkts., 6d.;  $\frac{1}{4}$  oz., 1/6; oz., 4/9

## French Tall

**GIANT TREE FRENCH (AUSTRALIAN TREE)**—This already well-known Marigold fills an important place in the garden. The plants are tall and graceful and the flowers are borne in profusion through the late autumn and winter months. NOTE: In order to obtain this subject for winter flowering it is necessary to delay planting the seedlings until January . . . . . Pkts., 3d.;  $\frac{1}{4}$  oz., 1/-; oz., 3/3

Marigold Gigantea Sunset Giants.

**GIGANTEA SUNSET GIANTS**—A prominent horticulturist has said that a flower to be desirable in the home garden must have one or more of three outstanding characteristics; it must be very showy, or fragrant, or of exceptional size. Marigold Sunset Giants has the happy combination of all three of these characteristics. Not only are the flowers the largest ever known in the Marigold group, averaging 5 inches and some flowers attaining a size of 7 $\frac{1}{2}$  inches, but they are produced in such profusion that a plant of Sunset Giants is one of the showiest spots in the garden. But most remarkable, instead of the usual Marigold odor these flowers have a definitely sweet fragrance, a fact which will undoubtedly place them among the outstanding novelties of the season. The flowers are loosely formed, very full centred, with broad, heavy petals gracefully overlapping to make a flower of great depth and even larger than Dahlia Flowered Zinnias. Sunset Giants is a mixture ranging from deep orange through golden orange, deep golden yellow, light yellow, lemon yellow, and a delightful new shade of primrose. The strain comes from 60 to 65 per cent. double . . . . . Pkts., 1/6

**"YELLOW SUPREME"**—Heralded as a companion to the popular Guinea Gold, "Yellow Supreme" does in many respects resemble it. Like Guinea Gold, it is very free flowering, compact and somewhat pyramidal in habit, 2 to 2 $\frac{1}{2}$  feet tall, bearing loosely ruffled, carnation flowered blossoms. The color is a light lemon yellow, and the flowers are somewhat larger than Guinea Gold. The characteristic Marigold odor is almost entirely lacking, adding greatly to its usefulness for cutting and garden use . . . . . Pkts., 1/-

**"DIXIE SUNSHINE"**—From the land of Dixie to the gardens of the world comes this most modern, most charming and unique Marigold. "Dixie Sunshine" is a ray of dazzling pure beauty. The large ball-shaped flowers are ingeniously composed of dozens of tiny five-petalled florets, gracefully interlocking, daintily fringed in effect. Brilliant golden yellow, 100 per cent. fully double, and but faintly scented with the characteristic Marigold odour . . . . . Pkts., 1/-

**COLLALETTE "CROWN OF GOLD"**—Its main claim to glory is the fact that there is absolutely no trace of the characteristic Marigold odor in the foliage, stems or flowers. It is the first of what will undoubtedly be a new race of completely odorless Marigolds. The flowers, which are of medium size, are a lovely golden orange shade with a full crested centre of small tubular petals surrounded by a single row of broad guard petals. "Crown of Gold" is valuable as a cut flower variety, primarily where it will be a boon to those who do not like or are sickened by the pungent Marigold scent . . . . . Pkts., 1/6

## SPECIAL OFFER

One Packet each of—

GIGANTEA SUNSET GIANTS.

YELLOW SUPREME.

DIXIE SUNSHINE.

COLLALETTE CROWN OF GOLD.

4 Packets for 4/-

# Nasturtium

For color, length of bloom, ease of culture and general usefulness in the flower garden, the Nasturtium has no equal. Where winters are mild the Nasturtium can be sown practically any time and within a few weeks the brilliantly colored flowers begin to appear, continuing in bloom the entire season. They are usually sown where they are to bloom, and the seed is covered about one inch with soil.

## Double Sweet Scented Varieties

**DOUBLE MAHOGANY**—Probably the largest flowered of the Double Nasturtiums. As the name denotes, the flowers are dark mahogany red but have such a velvety brilliancy that none of the dullness so often associated with dark colored flowers will be found in this variety. The immense flowers are borne with the greatest freedom on long, stiff stems well above the foliage of the semi-dwarf plants. The sweet scent is equal to any other variety . . . . . Pkts., 6d.

"Golden Globe."

**FIRE GLEAM**—A new bright scarlet, the sweet-scented flowers are fully double and are borne in great profusion. Plant growth resembles that of "Golden Gleam" but rather more compact . . . . . Pkts., 6d.

**GOLDEN GLEAM**—One of the most popular novelties introduced in recent years. The large golden-yellow double flowers are borne on erect stems 6 inches high . . Pkts., 6d.; oz., 2/3

Page Ten

**"GOLDEN GLOBE"**—Of all the novelties of latter years, the double Nasturtium "Golden Gleam" quickly became the most popular and the common property of both professional and amateur gardeners. Since the climbing plants of Nasturtium "Golden Gleam" are not suitable for all purposes, especially not in restricted spaces, Nasturtium "Golden Globe" should be very welcome. It has the same habits as its famous predecessors, but forms round shapely bushes covered with masses of bright sweet-smelling, golden-yellow double blooms. In our opinion it is the best double variety and a remarkable improvement on "Golden Gleam" . . . . . Pkts., 6d.

**ORANGE GLEAM**—Deep glowing golden orange with a deeper shading at the centre. Large sweetly-perfumed flowers borne in profusion on clean strong stems . . . . . Pkts., 6d.

**SALMON GLEAM**—Delicate golden-salmon, semi-double flowers of medium size; sweet scented. A most attractive color and very floriferous . . . . . Pkts., 6d.

**SCARLET GLEAM**—Those who have seen "Scarlet Gleam" enthusiastically proclaim it even more dazzling in color than the showy "Golden Gleam." The flowers are a fiery orange-scarlet of extraordinary brilliancy. The individual blooms are of an immense size, almost 3 inches across, much larger than any Nasturtium known. The sweet fragrance is more pronounced and the double flowers more uniformly well formed. The large, fiery scarlet flowers held well above the cool restful green leaves present an arresting contrast, while the ease with which the plant is grown under almost any condition ensures a universal popularity . . . . . Pkts., 3d.; oz., 1/-

**SUN GLEAM**—The most sweetly-scented of all the Double Nasturtiums. The color of the large flowers is a brilliant lemon-yellow—a soft, soothing shade that blends well with so many different colors. It is exceptionally floriferous, the exquisitely formed flowers being carried on long stiff stems well above the foliage. Plants are of the same semi-dwarf growth as "Golden Gleam" . . . . . Pkts., 6d.

**SUPREME**—An outstanding fine Double sweet-scented Nasturtium, the color of which is a marvellous shade of salmon-cerise. The gorgeous flowers are extra large, of good substance, and are borne profusely on long, strong stems well above the rich green foliage which further accentuates their beauty. The delightfully sweet fragrance of the blooms is quite pronounced. Wonderful color for cutting . . . . . Pkts., 6d.

**DOUBLE DWARF GEM MIXED**—An unusually colorful mixture of dwarf hybrids. The plants are compact in growth and are well rounded in shape. The gorgeous, giant-sized double and semi-double blooms are produced with great freedom on very long stems and are lovely for cutting . . . . . Pkts., 6d.

**DOUBLE GLEAM HYBRIDS** — This mixture is composed of an evenly balanced range of cheerful colors on dwarf, compact plants. The goodly-sized sweet-scented double flowers gaily cover the plants in an excellent color range which includes shades of yellow, orange, scarlet, crimson, salmon, cerise, cream, maroon and spotted varieties. While a majority of the plants have light foliage, there are a good many dark leaved plants as well . . . . . Pkts., 3d.; oz., 1/-

## Single Varieties

**LILLIPUT MIXED**—A distinct race of Dwarf Nasturtium remarkable for its profusion of brilliant flowers which are thrown well above the small foliage. Neat, compact habit . . . . . Pkts., 3d.; oz., 1/-

**TALL OR CLIMBING MIXED** — A choice mixture of the very beautiful and popular tall-growing single flowering Nasturtium . . Pkts., 3d.; oz., 1/-

**TOM THUMB SINGLE MIXED** — A combination of dwarf varieties, produces a grand display in a large bed . . . . . Pkts., 3d.; oz., 1/-

**SPECIAL**

**OFFER**

**NASTURTium**

ONE PACKET EACH OF  
DOUBLE VARIETIES.

**10 Packets for 3/9**

## Petunia

The Petunias make a charming display in the garden. The colors are bright and varied, and the plants flower over a long period. Lovers of bright clear sunshine and dry atmospheric conditions, it naturally follows the plants yield of their best in the clear Australian sunlight.

### Large Flowered Ruffled

**GIANTS OF CALIFORNIA**—A justly celebrated strain. Enormous ruffled and frilled blooms in a surprising range of brilliant colors . . . . . Pkts., 2/6

### All-Double Strains

5/- PER PACKET.

A new race of Petunias producing 100 per cent. of double flowers; it should be noted that the advance over existent strains is not only that of duplicature but of form. Seldom have we seen such perfect flowers as are produced by the "All-Double" Petunias.

**TRIUMPHANT, ALL-DOUBLE FRINGED MIXED**—The original All-Double Petunia much improved for variety of color.

**TRIUMPHANT, ALL-DOUBLE FRINGED ROSE PINK**—A specially fine selection, of good habit, well suited to pot work.

**TRIUMPHANT, ALL-DOUBLE FRINGED WHITE, VEINED BLUE**—A most outstanding Petunia, white ground veined, beautiful deep violet blue.

**SUPERB MIXED**—All-Double Mammoth Paeony Flowered Mixed—A large flowered strain of immense size with petals attractively and loosely formed. A great variety of color.

### Bedding Varieties

**ALDERMAN**—Rich violet color; excellent for small beds and borders

Pkts., 6d.;  $\frac{1}{4}$  oz., 4/3; oz., 14/-

**LAVENDER QUEEN**—A pretty pale mauve

Pkts., 6d.;  $\frac{1}{4}$  oz., 4/3; oz., 14/-

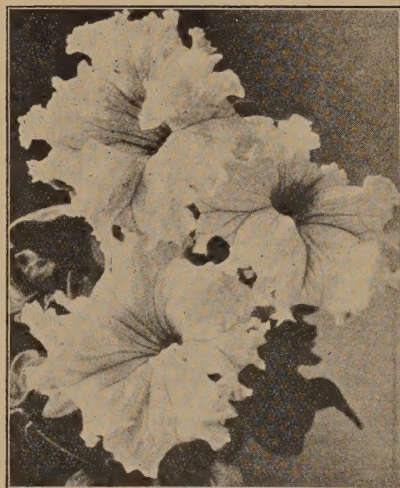

**ROSE OF HEAVEN**—Bright rose, a charming color for bedding and very free-flowering; one of the best

Pkts., 6d.;  $\frac{1}{4}$  oz., 2/9; oz., 9/-  
**BORDER, MIXED**—A well-blended mixture of the bedding type . . . . . Pkts., 3d.;  $\frac{1}{4}$  oz., 4/3

**DWARF STRIPED**—An excellent Petunia for massing in beds and borders, yielding a large number of brightly marked striped single flowers . . . . . Pkts., 6d.

**STINTON'S NEW DWARF**—The variety is extra compact in growth and is an admirable addition to the bedding and border plants. Plants flower over a long period, giving a profusion of brilliantly colored blooms

Pkts., 1/-;  $\frac{1}{4}$  oz., 4/3; oz., 14/-

## Phlox Drummondii

### Stinton's "Claremont" Strains

Phlox are among the most charming of our summer and autumn flowering annuals, and they thrive best in a dry climate and a sunny situation. Large beds of Phlox make an amazing show of wonderful colors, and they cannot be grown too freely in any garden. We pay the greatest attention to our "Claremont" strain of Phlox and the displays seen at our "Claremont" Nurseries invariably call forth much comment and praise from visitors. The mixture includes only the brightest and most wanted shades, and the largest flowered varieties.

**STINTON'S BUFF BEAUTY**—A lovely color, quite distinct from the ordinary Phlox colors, being a unique shade of buff yellow self . . . . . Pkts., 6d.;  $\frac{1}{4}$  oz., 1/9; oz., 6/-

**STINTON'S CRIMSON BEDDER**—It is the reddest and the most richly colored Phlox we know. The flowers are large, of perfect form, and are marked with a conspicuous dark blotch in the throat . . . . . Pkts., 6d.;  $\frac{1}{4}$  oz., 1/9; oz., 6/-

**STINTON'S FIRE KING**—The color is vivid scarlet, and the large flowers make a brilliant show of color . . . . . Pkts., 6d.;  $\frac{1}{4}$  oz., 1/9; oz., 6/-

**STINTON'S MAYFAIR**—Well formed flowers produced in large heads; color, delicate rose pink . . . . . Pkts., 6d.;  $\frac{1}{4}$  oz., 1/9; oz., 6/-

**STINTON'S QUEEN OF THE ROSES**—A very large flowered strain of Phlox, producing charming salmon pink flowers . . . . . Pkts., 6d.;  $\frac{1}{4}$  oz., 1/9; oz., 6/-

**STINTON'S PURPLE PRINCE**—Large handsome flowers of deep purple color . . . . . Pkts., 6d.;  $\frac{1}{4}$  oz., 1/9; oz., 6/-

CINNABAR SCARLET.

CHOICE MIXTURE.

DARK BLUE.

DEEP CRIMSON.

SALMON ROSE.

PACKETS, 1/-;  $\frac{1}{4}$  OZ., 4/3; OZ., 14/6.

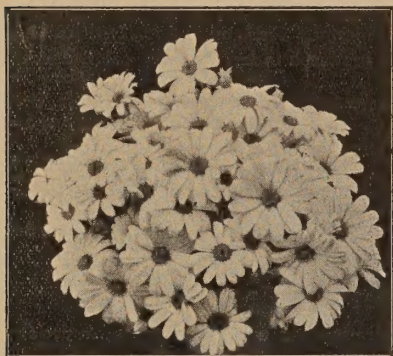

# Subjects for a Dry Position

We list on this page subjects that will thrive in dry, hot positions. The harder the conditions, the better they like it. Many Gardeners neglect such a situation, but it can be the brightest spot of the garden by sowing the correct varieties of plants as recommended hereunder.

## Dimorphotheca

(STAR OF THE VELDT.)

The Dimorphotheca is one of the quickest of our annuals to bloom, and may often be had in perfection within six weeks from an open ground sowing made in September or October. The rich orange color of the type has become exceedingly popular wherever it is grown, as also have the new brilliant apricot, and lemon-colored varieties.

AURANTIACA GOLDEN WEST—

Vivid golden-yellow

Pkts., 3d.;  $\frac{1}{4}$  oz., 1/9; oz., 6/-

AURANTIACA SALMON BEAUTY

—True salmon, delicate and attractive . . . Pkts., 3d.;  $\frac{1}{4}$  oz., 1/9; oz., 6/-

AURANTIACA HYBRIDA MIXED—

Colors range from white, cream and salmon to deep orange

Pkts., 3d.;  $\frac{1}{4}$  oz., 1/-; oz., 3/9

ECKLONIS (PERENNIAL)—Makes a

spreading bushy plant covered with large white flowers with small deep blue centre . . . . . Pkts., 6d.

## Ursinia Anethoides New Hybrids

JEWELS OF THE VELDT—Brilliant flowered Daisy-like annual from the Cape. The dwarf plants are furnished with finely-cut foliage, above which rise the brilliant flowers which are borne in profusion. The colors range from yellow to deep orange. The plants should be grown on a sunny position and when in flower will win a great deal of admiration . . . . . Pkts., 6d.

## Mesembryanthemum Criniflorum

(syn Dorotheanthus Criniflorus)

LIVINGSTONE DAISY—Absolutely hardy and one of the most easily grown annuals. Plants of slightly spreading habit, literally covered with flowers, measuring about one inch. There are pure whites tinted and edged with rose, crimson, pink and buff; and self colors including primrose, golden, buff, apricot, crimson and pink. Ideal carpet or rockery plant . . . . . Pkts., 1/-

## SPECIAL OFFER

ONE PACKET EACH OF THE VARIETIES ON THIS PAGE  
9 Packets for 2/9

## Portulaca

(SUN PLANT OR MOSS ROSE.)

A well known and most useful plant for covering dry, barren soils. The plants are extremely bright and vary from white, pale-rose, and yellow, to dazzling scarlet, orange, purple and dark red.

GRANDIFLORA DOUBLE MIXED . . . . . Pkts., 3d.,  $\frac{1}{4}$  oz., 3/3  
GRANDIFLORA SINGLE MIXED . . . . . Pkts., 3d.;  $\frac{1}{4}$  oz., 1/-

## Eschscholtzia

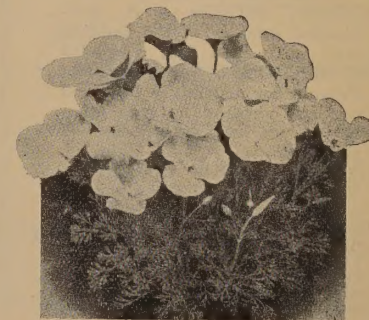

(CALIFORNIA POPPY.)

Only may those who have used Eschscholtzias for summer bedding have any idea of the gorgeous effect produced by these plants. Although Eschscholtzias are strictly perennials, the modern practice is to grow them as annuals. From seed sown in the open ground in spring, the plants will produce a fine display of flowers during the summer months.

STINTON'S "CLAREMONT" SPECIAL

MIXTURE—This new mixture which we now introduce is entirely distinct from all other types, and produces a compact plant with neat feathered foliage, above which the flowers are freely produced. Each bloom is large, semi-double, and of exquisite formation. The colors range through light rose to deep rose and carmine, and from deep golden yellow through all the varying tones to orange and scarlet. Their beauty is enhanced by an almost metallic sheen which gives an effect of brilliance in color never before approached in the Eschscholtzia family

Pkts., 6d.

# SWEET PEAS—Spring and Summer Flowering

These give a wealth of bloom and a variety of colours equalling the Winter-flowering type, and those who give them a trial have a treat in store. Our varieties have been selected from several hundred different named kinds, and no better selection is possible.

PACKETS, 3d.

LARGE PACKETS, 6d.

NAMED VARIETIES AND MIXTURE, OZ., 1/3.

## ★ Special Collections

6 DISTINCT VARIETIES . . . 1/3 PER COLLECTION  
12 DISTINCT VARIETIES . . . 2/- PER COLLECTION

**BRITANNIA**—Soft rose on deep cream ground; very frilled flowers on long stems.

**CAMPFIRE**—Vivid scarlet; sunproof.

**CHARITY**—Rich deep crimson; very large.

**CHARMING**—Bright cerise; beautifully waved; large and vigorous.

**CHIEFTAIN**—The plant is most robust in growth, and produces in the greatest profusion very long flower stems bearing four to five immense yet perfectly formed blossoms of a rich pure satiny mauve color, entirely free of any purple shading.

**COLORADO**—The colour is richer than orange, brighter than prawn red. The flower is equal in size to the best of Sweet Peas. Four and five flowers on excellent stems.

**CRUSADER**—Standard; rich orange salmon; wings salmon shaded rose; a robust grower, very free flowering, producing large flowers, often five on a stem.

**DELICE**—Soft lilac; enormous flowers on long stems; good exhibition variety.

**DELIGHTFUL**—A rich terra cotta cerise, suffused orange; vigorous habit; perfect placement and a preponderance of flowers.

**FLUFFY RUFFLES**—This marks the first of a new race of Sweet Peas. The flowers are so waved or ruffled to give it the appearance of an entirely different double flower. A beautiful shade of warm cream-pink, overlaid with soft light salmon. Of vigorous habit, it is an ideal variety for all purposes.

**FORTUNE**—Very rich dark blue. Its wings are real blue, bright and solid. The standards, which are of great size, beautifully waved, are real rich violet. Suitable for garden, decoration and exhibition.

**GLORIOUS**—This Pea is a decided improvement on any cerise yet offered. It has the habit of Charming, but the flowers are larger and richer in color. A perfectly glorious variety all growers must have.

**GOLD CREST**—Rich orange tinted salmon.

**GUINEA GOLD**—Deep golden orange of good form, giving fours and fives freely, and standing the sun and wind better than most varieties of that shade.

**HEBE**—Rich deep rose.

**IVORY PICTURE**—Rich cream on ivory; the form and build of the original Picture.

**MAGNET**—A brilliant pink, very heavily suffused on a rich cream ground. A wonderful grower under all conditions. Large flowers are born on long stout stems, producing in abundance four or five flowered sprays. This variety should be in every grower's collection whether for garden or exhibition.

**MARY PICKFORD**—A dainty cream pink, faintly suffused with salmon. Flowers of perfect form, with both standards and wings decidedly waved; the individual flowers are well placed.

**MISS CALIFORNIA**—Rich salmon pink on cream; giving plenty of fours.

**MODEL**—A good solid white (tinted) producing four well placed flowers on long stems.

**MRS. A. SEARLES**—Both outdoors and under glass it is top quality. Rich pink merging into soft Orient red self, it is the nearest definition to this very remarkable and glorious color.

**MRS. CHAS. W. J. UNWIN**—An outstanding variety, deep salmon pink in color; large well placed flowers.

**OLYMPIA**—The flowers, which are very large, are of perfect form and well placed on long stout stems. The color is a rich clear purple; one of the best in this section.

**ORANGE FLAME**—Deepest orange colored Sweet Pea grown; vigorous.

**ROYAL BLUE**—The brightest of all the dark blues, a true rich navy or royal blue, glowing and bright; great substance, vigorous habit, and exquisite form.

**ROYAL SALUTE**—Rich sun-proof scarlet-cerise; a strong robust grower; excellent for cutting and exhibition purposes.

**ROYAL SOVEREIGN**—Brilliant glowing orange; a decidedly distinct and superior variety; should be included in every garden.

**RUDDIGORE**—The largest brilliant blood scarlet Sweet Pea. The standard is erect, wide, and of great substance; the flower stems are long, strong, and invariably carry four or five well placed perfect blooms, which are absolutely sunproof.

**SKY**—Light silvery lavender blue. Though practically a self, the color is slightly intensified in the wings. Flowers are large and well frilled.

**SPLENDOUR**—Rich maroon red. This variety resembles Warrior in size and vigour, but is brighter and without a trace of purple; does not burn in the sun.

**SUNKIST**—For many years Sweet Pea enthusiasts have been looking for a really good picotee edge cream ground novelty. The ground is a clear rich cream, and the pink picotee edging is clearly and cleanly defined. The flowers are large and bold, well waved, and beautifully placed on good stout stems.

**SUSAN**—Dainty delicacy characterises the tints of this flower; the blush pink is laid on so lightly that a creamy ground color merges through, and the standards and the reverse of the wings carry most pink.

**SYBIL HENSHAW**—Deep rich crimson lake, with a bright metallic sheen overlaying the standard; very vigorous.

**THE PRINCE**—A first-class exhibition variety. The flowers are exceptionally large and of magnificent form. The standard extends far beyond the keel. The color is a rich clear crimson, overlaid with a beautiful metallic sheen.

**VENUS**—Cream pink, very vigorous; perfectly fixed.

**WARRIOR**—Very large shiny maroon.

**WHAT JOY**—Large, solid, well waved cream; vigorous grower, producing fours on wonderful stems.

**“Claremont” Finest Mixture**—A well-balanced and complete mixture of all the best varieties carefully prepared and blended in the right color proportion.

# Flower Seeds for Spring Sowing

# LAWNS

Stinton's Lawn Grass Seeds have given universal satisfaction for the past 30 years and are used on many of the largest estates in every section of the country for making the best lawns. Our mixtures contain only the best grades of re-cleaned grasses, blended in proportions to give quick and permanent results.

The following varieties of Grass Seeds are available:—

|                       |                   |
|-----------------------|-------------------|
| CHEWINGS FESCUE,      | CRESTED DOGSTAIL, |
| CLOVER (White Dutch), | ENGLISH RYE,      |
| COUCH GRASS,          | IRISH RYE,        |
| CREEPING BENT,        | KENTUCKY BLUE.    |

All Grass Seeds are subject to market and currency fluctuations and prices will be forwarded on request.

## CLAREMONT "MEADOW GREEN" MIXTURE

This excellent mixture produces a perfect as well as permanent lawn—of luxuriant richness. It quickly forms a closely interwoven, firm and elastic turf ready for cutting about 6 weeks after sowing. Our years of experience have given us the knowledge of which grasses are the most suitable for a perfect lawn mixture. Claremont "Meadow Green" Lawn Grass Mixture contains only the finest grasses. Our seeds being thoroughly re-cleaned and free from weeds rank high as some of the best procurable.

1 Lb., 3/- 5 Lbs., 13/9; 10 Lbs., 25/9.

## CLAREMONT "ULTRA GREEN" MIXTURE (For Shady Situations)

Usually it is quite difficult to obtain a satisfactory growth of grass under trees and in shady places; for sowing in such places we recommend the use of this special mixture. It will quickly produce an abundant and even growth of beautiful green grass. The grasses used in making this special mixture are only those adapted for growing in shade. It has been successfully used on some large operations where a green sward was desired on land partially shaded by old trees.

1 Lb., 3/- 5 Lbs., 13/9; 10 Lbs., 25/9.

## BUFFALO GRASS ROOTS

Buffalo Grass Lawns are eminently suited for light sandy soils, and for planting in coastal regions. Roots should be planted from September to December.

PRICE . . . 10/- PER SACK.

# Vegetable

## Perennial Phlox Stinton's Giant "Claremont" Strain

A new large-flowered race, with flowers of perfect form, borne on stout but graceful stems, at least twice as large as the previously best known types. The colors cover a diversity of shades peculiar to this family of plants.

NOTE.—These plants require a well cultivated rich soil and prove more successful if planted on a partially shaded site.

**PLANTS . . . 1/6 EACH; 15/- PER DOZEN.**

**BOOK EARLY FOR  
OCTOBER-NOVEMBER DELIVERY.**

CELESTE—Rich oriental blue, splendid large flowers, held in immense trusses. Tall growing.  
CHALLENGER—Extra large flowered variety of striking appearance. Rich bordeaux red, suffused saffron orange. A gem.  
CHARM—Clear rich lavender pink, attractive flower trusses.  
DAINTINESS—Soft lavender pink, deeper blotch on each petal in centre; large truss.  
DAYBREAK—White, flushed pale pink, radiating from a distinct eye of deeper tone; most attractive.  
DELICE—Medium growing habit, main color rose pink, with beautiful cerise eye. Delicate white markings on petals.  
DIADEM—Rose pink self deepening towards centre forming a brilliant eye. Well-formed flower trusses.  
DREAM—Deep heliotrope with brilliant carmine eye. Tall growing.  
EVENSong—One of the finest varieties we have. Tall, strong growth, palest pink, with brilliant carmine eye.  
EXQUISITE—An unusual combination of blue and white; tall elegantly formed trusses; well worth inclusion in your collection.  
GAIETY—One of the best pinks to date; flowers attractively marked with a rich lavender zone in centre.  
ILLUMINATOR—Large loosely formed flower trusses; clear pink illuminated with large carmine eye.  
JOCELYN—Clear lavender rose with deep carmine eye. Similar to "Evensong" but color more intense.  
MAGNET—Beautiful large flowered rose pink; a variety that stands out; large well-formed trusses.  
MYSTERY—Dwarf growing clear sky blue; well filled trusses of perfect shape.  
NERO—Rich reddish purple with distinct carmine eye. Well formed truss.  
PEACE—Large-flowered pure white; superb form.  
PINK SATIN—As its name indicates, deep satiny pink; extra large flowers, distinct.  
ROSAMOND—Large pink, prettily marked white; distinct lavender spots in centre.  
SCINTILLANT—Rich glowing salmon orange, with deep crimson eye. Tall, a brilliant flower.

# DAHLIAS

These plants are available for distribution in the month of November. The varieties as offered in our list have been carefully selected to meet conditions which usually obtain in the average Australian garden. Dahlias are most useful for planting as a background to flower beds, and on account of the profusion of blooms the plants bear during the autumn months of the year, are particularly desirable as a garden subject. Even though only a few plants may be set in a small garden, they will prove a valuable asset in helping out the autumn show of flowers.

## Giant Decorative

AMUN-RA—Copper orange, overlaid gold.  
AUDREY WEISS—Large deep salmon pink.  
CHAMPAGNE—Clear golden buff.  
DAILY MIRROR—Rosy lilac, suffused carmine.

### Outstanding Marigold Novelty

#### MARIGOLD GIGANTEA "SUNSET GIANTS."

This novelty has all the outstanding characteristics of the ideal Marigold in that it is very showy, fragrant and of exceptional size. Instead of the usual Marigold odor these flowers have a definitely sweet fragrance.

"SUNSET GIANTS" have a wide range of color from deep orange, through golden orange, deep golden yellow, light yellow, lemon yellow and a delightful new shade of primrose. A heavy demand has set in for plants of this Marigold and our clients are asked to place their orders as early as possible for their supplies of plants in season.

Price . . 1/6 Dozen.

### New African Varieties of Marigolds
